

A long, modern bridge with a complex steel truss structure spans across a wide body of water. The bridge is supported by several large concrete piers. The sky is filled with soft, white clouds, and the sun is low on the horizon, creating a warm, golden glow. The water reflects the light from the sky and the bridge. In the distance, another bridge with tall pylons is visible on the horizon.

# WELCOME TO MALMÖ UNIVERSITY

MALMÖ UNIVERSITY

# MALMÖ

- The third biggest city in Sweden.
- Average age of citizens in Malmö is 36 years. In Skåne the average age group is 40 years and in Sweden 41 years.
- Culturally diverse with around 170 nationalities.
- Previously a traditional industry city, now characterised by entrepreneurship and a skilled workforce.
- Linked with Copenhagen and the rest of Europe via the Öresund Bridge.
- In the population group 25-64 years, 46% of Malmö residents have a higher education. The overall proportion for Sweden is high at 40%.
